## **GRAND PARENTING SUPREME**

**What kind of emotions can you get from this PICTURE?**

Now begins the 3<sup>rd</sup> generation. Typically, grandparents now begin a journey of caring gentle support, loving, and

polite grandparenting. When grandparents have raised each of their children in a fashion JESUS desires excellent wonderment arises in the third generation. Now begins a total new opportunity between 1<sup>st</sup> and 3<sup>rd</sup> family members. Leadership is dependent upon the 1<sup>st</sup> generation giving and teaching to the 3<sup>rd</sup>. Dad and Mom of the 3<sup>rd</sup> generation now receive the finest opportunity to parent their child on correctly, politely, lovingly, treating Grandparents. Life is always a pleasant challenge to give great responses to options in front of each of us.

Can you really read well what is being expressed without any words being verbally said? The old saying says, **“a picture says a thousand words.”** The picture also reinforces another truth of us people. What is that? **Our actions speak louder than the words we say.”** Can, you really review the picture then think to yourself of what is inside the emotions of each of the four special people you are viewing?

This is life. Life is what each of us parents deal with, each of our children is more powerfully important. In reality it is more important than any so-called FINANCIAL INVESTOR! Financial deals with money, when PARENTS DEAL WITH THEIR CHILDREN! GRANDPARENTING can

and should be a super powerful ingredient in the life of each child today and tomorrow.

Maybe grandparents cannot do physically what they used to do in the past. Yet, as each age, they can become real treasures of history, knowledge of how to accomplish actions in the near future, plus WISDOM to use in the future, plus guidance of how not to proceed. Somehow in the picture above each has fantastic fun simply being together.

## **MARRIGE PREPARATION OF CHILD**

**PROFITABLE**, is this one to mom, dad, child, plus total family. **MARRIAGE PREPARATION OF CHILDREN**, needs to be on every parent TO DO LIST! First best example is how mom & dad interact with each other. With the child living 24/7 with mom and dad that is the main real educational system their child learns from. It is not the school, the church, or any children programs. It is Father and Mother!

This being their main teacher of preparation for marriage, it is here each child learns how opposites get

together to handle real life challenges. OPPOSITES?  
YES, opposites are men and women. They are different in sexual orientation plus different in feminine orientation and masculine orientation. At times each of us do not totally understand DIFFERENCES others have from ourselves. The more children receive this from their leader, giver, provider, parent the finer their future will be. Can that be you as a special educational parent of unknown accent?

Now let us move on to preteen or a little after. Advancing into the double-digit years of life with each of your children, you get to decide when the time is correct. You can do this with one parent or both. So now you may have 2 or 3 of you in a private parent child time of conversation. Parent asks the child if they have ever considered marriage. If the answer is YES, then try this suggestion.

Ask your child if they can write themselves a letter. Put the date at the top, then write the letter to themselves. Suggest the following topics to what the child may discuss of their future mate. Does he/she desire children? What about their education, location, home ownership, vacations, hobbies, habits, financials,

personalities, plus social pleasantness? You understand this now!

Now ask if they can let you if they have done it in the next few weeks. You can suggest this to them. If they think they have met that person suggest this. IF they met about 50 or 55% of it, then it is time to let that person politely go, gently and nicely. If he or she is 85 to 90% continue as none of us are perfect!

## **DATING YOUR CHILDREN**

Dating each of you children, 1 on 1, is one of the most powerful actions a parent can do. When done with the most efficient **CHRISTIAN METHODS** this becomes most effective affirmative actions with parent and child. Not

immediately, yet soon! Suggestions follow that are easy to do, that return forever memories. Desire to keep leaning more? Here we go with **PARENTAL THINKING MATERIAL** for you and your spouse! Youngest of ages is best, even before 5 years of age.

Ask each child for a one-on-one date. This can be a few days in advance. What this does it gives your child some thinking time to anticipate. When the day arrives, you take your child to a fast-food restaurant of their choice. They get to order whatever they desire, with you paying. When eating you have only one mission. You ask any question, then they answer you while you look at your child eyeball to eyeball.

Your singular parent position is to listen, while your child speaks. This will fill you with maybe unknown data inside your child's emotions which is your parenting goal. Desire a few questions to think about? Remember you are the parent and can adjust any of these or ask anything that is of important about your family. Here are a few to place in your thinker.

What is our favorite activity?

What chores do you like the best?

Do you like learning?

What subjects do you like to learn?

Can you name me 3-5 of your future goals?

How do you like school?

At home what do you like the most?

Can you tell me about physical activities you like?

Do you know what you would like to do as grown up?

Can you give me thoughts on your parents?

What would you like them to do more of?

What would you like them to do less of?

There is a real treasure chest of treasures inside of each of your children. Each of us can get good at asking questions, then watching eyeball to eyeball while listening to each child, Parents who get good at this parenting tactic begin to gain knowledge of finest.

Dads, this is normally where we are behind in major raising each of our children. Who are we behind? Usually, our wife's. Just take a good look at parenting standardization in society. Moms are ahead of Dads when it is important to know the real emotional needs are of the family's children. What does that really mean?

It is this. Somehow, she knows best how to parent each child ahead in the future.

Children learn internally how important their mom's encouragement is to their advancement in life skills. This has nothing to do with their earning of income. It is how they possess a good talking, counseling technique inside of their special internal special self-personality.

Large or small it makes no difference in size. This world judges the size. GOD does not judge the size. Inside each home is where the real difference is made by each parent. Neighbors have nothing to do with it, co-

workers, or others outside your family. Your **TREASURE CHEST** is inside each member who lives there! Dollars, or finances only keep confusing the real issue of each home we live in. This is of great importance for each parent to possess inside of their **SOUL**. **JESUS**, knows what is inside of your **SOUL**, plus how you may contradict words you may say using your brain that tries to confuse others.

What does all that really mean? It is this. Each one of us may try to confuse others with our fancy usage of words, yet **GOD** knows the truth. The real truth is inside of our **SOUL**, which can be different from what we say by usage of our brain. Words many times are adjusted more to the listeners adoptability than the spiritual truth.

**PARENTING TRUTH** at times take stamina, courage, strength, gentleness, all with good **SPIRITUAL KNOWLEDGE**. **SPIRITUAL KNOWLEDGE** begins to arrive when each of us get good at **SPIRITUAL THINKING**. What does that really mean? Here is one tactic. This is when each parent faces a good question of parental action to engage in. Then this parent questions them self as to what is the best action to be done. **HOW WOULD JESUS RESPOND TO THE OPPORTUNITY**. That is exactly how each family opportunity should try to proceed. **JESUS**, explains all this directly in the **NEW TESTAMENT**.

# **CELL PHONE FAMILY**

# YOUR INDIVIDUAL SOUL

YOUR **SOUL** is different from all others. Stay tuned as this is of great interest to all parents to live, teach, encourage, live by. Especially in their younger years each child is totally dependent upon both mom and dad for life provisions. Our medical people possess and have great data on us as individuals. Medically they know lots about our body.

Two of the most important portions of our body are the HEART and the BRAIN. With good medical people conversing with you all kinds of truth can be discussed plus learned. One item medically not discussed is your

SOUL. Inside your SOUL. **Your SOUL is a special non material portion of yourself. A part that is understood to be NEVER, EVER DYING!**

**JESUS SAID, "I AM THE RESURRECTION AND THE LIFE. HE WHO BELIEVES IN ME WILL LIVE, EVEN THOUGH HE DIES; AND WHOEVER LIVES AND BELIEVES IN ME WILL NEVER DIE. DO YOU BELIEVE THIS?"**

Now back to the medical people, especially relating to the heart and mind. In a pleasant conversation can they explain where your SOUL is? If you do try to get really good at listening, understanding, plus patience.

We will end this portion with this. You yourself are in total separate control of your SOUL. Now one else does have that control of your SOUL. As a parent you are in charge of your SOUL, plus teaching each of your children how important they are with their own SOUL! Best to you and yours.

This is not expensive! You will discover tactics that will permanently empower every person who had the pleasure to view your decorative talents. This is done at the lowest expense ever thought of.

**PARENTS**, this is the most important subject for mom and dad to discuss on a constant regular, disciplined basis nearly day to day. This is so important it actually delivers the finest of treasures your entire family will deliver ETERNALLY. Each parent must always keep this truth in mind. We are shortly going to discuss **THE PAST, THE PRESENT, THE FUTURE and THEN ETERNITY**. Each these are very important to your entire family to harness well into their personal SOULS. You are the most important person you have total control over. You have leadership over your family but not total control. The 3 events we have mentioned above will be discussed to give each parent some good, healthy, thinking material

for each of their individual thinking abilities. READY, SET, GO!

**THE PAST** is done, gone, forever and cannot be changed. This is hard for most people to place correctly. As it cannot be changed even when it is negatively discussed. Possibly it can be used as a positive when visiting politely to instigate a better option. Having a nice polite discussion is always best to visit about on how to improve in the present or future. Can we move on to the PRESENT, to observe what we each can do with it?

**THE PRESENT**, is now as you are reading this. You personally have the personal, individual, control of the present with what to do with it. It gives you total control of NOW! What you do with the PRESENT can be visited about when in the future you want to visit past history. That may be a little confusing so we will now change. The **PRESENT** is a real GIFT to each one of us. What each of us does with the present has a way of affecting the future. PLEASE, plant that in your mind! As a good parent these are all excellent to visit and talk about with your children.

**THE FUTURE**, is what is to happen, occur right after right now. Because each one of us is in control of **THE PRESENT**, we have control of our mission for the future. Can us in parenting make good plans, with good intentions, plus get really good at self-discipline to implementation? That may be our plan in the present, yet we have to wait for the future to make observations. Then evaluate. or replan, or get got at remodeling our goal. Get used to it as this is a lifetime non changing event for each person/parent.

**ETERNITY** is the one place about the future that many people multiple times get lost about. This earth gets us people confused with the most valuable asset any of us can obtain. Each of us were created by the CREATOR who created each person differently from all others of billions of people. One of the opportunities HE gives each one of us is where to go when we leave this short life on this earth. Eternity has no ending as in **EVER!** How does that compare with this short life on this earth? Can any of us place a value on that?

**FAMILY CHORES**, are individually with each of us until the day we pass on from this life. Just implement your THINKER to do some good thinking. When we each leave this short life compared to **ETERNITY**, which has no ending, preparations can be made individually. Chores really begin as early as super young in our early days of life. Join us to begin how super valuable this one can be to children, parents, and grandparents.

Real chores begin early in life as parents begin to teach children several different physical actions. It really begins with children learning what repetition is, even though they cannot say the word, repetition. Yet, they can learn how to crawl, smile, look directly at you, then walk plus talk. All require repetition. As each child ages with these techniques, parents can continue teaching clothing standards, bedroom standards, plus other easy meal time preparation opportunities and clean up children are able to do.

After each chore accomplishment it is important for the child to hear from their parent a WELL-DONE signal.

payment. The PAYMENT is not in cash, but in personal emotional pleasing to their child. Emotional pay is of much more importance to a child at young ages than any dollars have. With good parenting we already know this standard as GOD made us this way.

NOTE: This is of primary importance in even our adult life. Just think back to the early days you were attracted to your spouse. Was it money? I hope not. It is best if it was kindness, dress standards, pleasantness in society, SPIRITUAL CONDITONING, education, polite services, plus multiple goals as you possess. Even same friendships become an important portion in premarital days.

Even if some of these did not occur you are the most important person your child is learning by. You are in charge of your child 24/7. Any school is normally less than 40 hours, plus they do not have the same good spiritual standards you do. Each parent needs to do their internal best to lead the family ahead in every opportunity that arrives in their family future. **PARENTS are the leaders, teachers, providers, givers, plus servers of all IMPORTANCE. WHEN** done correctly children in their adulthood return the highest of dividends their parents ever, ever thought about in their parenting years! **AMEN.**

**FAMILY FINANCIALS**, are always in changing motion continually, even with children. Parents need continual attentive actions to stay attentively aware with both themselves, plus each child. This alone will set the future stage for powerfully important events in the total family. Here is another reason both mom and dad need constant communications with each other. This too is another reason for each of them to be aware of the tendencies of each of their children.

**FINANCIALS** cannot be taken with you when you leave this earth, yet with what you do with them does. How parents utilize them plus teach them on a constant basis is building up their LEGACY. Your LEGACY lives on permanently in your family members.

Children learn about money early in each of their young years. They constantly observe parents investing money on all kinds of family events. They
